Key

For best results, the inhalers with this icon should be used with a spacer or chamber.

Compare Your Options

Can't afford your inhaler? Ask your doctor, nurse, or pharmacist about options. Most inhalers have a patient assistance or discount program for people who have commercial insurance or no insurance. Some inhalers have a \$35 out-of-pocket cap. Visit aafa.org/asthmameds or scan this code for more information about inhalers.
